

beverage cooler - swing door

features

- Our MPM120 range comes standard with a controller / digital display
- Durable exterior and interior in "Chromadeck" or stainless steel finish
- Rigid "Self-Closing" doors fitted with "Armour Glass" for safety
- Cooling evenly distributed throughout unit for maximum efficiency
- Lighting for maximum sales impact
- Quality and workmanship guaranteed (excl. glass and light tubes)
- National sales and service back up
- Push-on door seals can be replaced without tools
- Ozone friendly refrigerant
- All heavy gauge/epoxy shelves are fully adjustable
- LED Lighting
- Maintenance free condensers on most models

specifications

- Capacity: 531L
- Number of Doors: 1
- Shelves per door: 4
- Case Packout: 640 x 330ml Cans / 256 x 500 PET
- Cooling by compressor
- Temperature Range: 3° to 5°C
- Refrigerant: R290/370g
- Voltage: AC 220V/50Hz
- Dimensions: H – 1995mm x W – 635mm x D – 750mm
- Interior Dimensions: H – 1560mm x W – 555mm x D – 660mm

emd equipped™

Breakthrough technology replaces a conventional thermostat with an advanced electronic energy management system to cool quicker and maintain a more consistent temperature, while saving precious electricity.

low e cabinet™

A superior combination of LED lighting, polyurethane insulation and low emissivity glass yields power savings around 40% lower than conventional refrigeration units.

green advantage™

By combining EMD control with ECM fans, electronic expansion valves and high-performance coils, we are able to further reduce energy consumption while improving cooling performance.
